

## ISLAND CUTOUT SPECS

**Important note to consumer:** This spec sheet is not intended to replace your Owner's Manual which contains specific safety requirements and consumer guidelines. Please refer to your Owner's Manual prior to installing and operating your built-in barbecue or components.

**Island diagram:** Use this diagram to help you determine the cutout dimensions for your installation.

**Ventilation:** Proper ventilation is required on all islands. Refer to local building codes for the requirements in your area.

### Clearance for hood to backsplash

Turbo	6 inches

### Clearance to combustible construction

When choosing a location for your gas grill, you should not have it located under any combustible construction. The side, bottom and back of the grill should not be any closer than 36 inches to combustible construction.

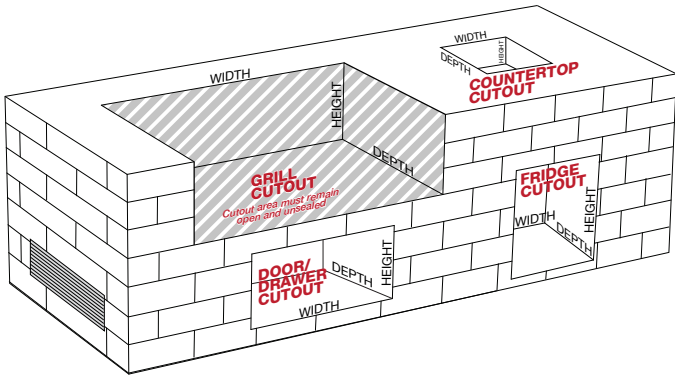

### Warning

All gas grills listed are intended for outdoor use only and are not intended to be installed in or on recreational vehicles or boats.

Barbeques Galore®

# ISLAND CUTOUT SPECS

All stated dimensions below are accurate but as tape measures and grill bodies can vary by 1/8", we recommend measuring and confirming your purchased unit before installing or constructing your barbecue island.

**Cutout Dimensions**  
Build your barbecue island to these specifications to ensure proper fit of the product being used.

**Overall Dimensions**  
Describes the actual dimensions of the product once it is resting/ installed in a barbecue island. For grills, overall dimension is the height from the base of the grill to the top edge of the counter trim.

**Total BTU Ratings**  
These numbers show the total volume of gas used by the product while operating at full capacity.
